20         The <a class="breed" href="https://en.wikipedia.org/wiki/Briard">briard</a>,
21         or berger de brie, is a large breed of dog traditionally used as a herder
22         and guardian of sheep
23     </p>
24     <h3>Breed History</h3>
25     <p>
26         The briard, which is believed to have originated in france, has been bred
27         for centuries to herd and to search for wounded soldiers because of its
28         fine sense of hearing. Briads were used in the First World War almost to
29         the point of extinction. Currently the population of briards os slowly
30         recovering. Charlemagne, Napoleon, Thomas Jefferson and Lafayette all
31         owned briards.
